

117TH
TECHDAY

29 Sep 2021

14:30 - 16:30 (Lisbon Time)

10:30 - 12:30 (Brasilia Time)

Online / MS Teams

The Power of New Technology Integration

The **POWER Project** aims to be the enabler for a solid and sustainable digital future for Altime Labs and the Altime Group, leveraging the creation of an innovative portfolio of products and services through research and development efforts aligned around four vectors of transformation: **5G networks, Edge/Cloud computing continuum, data-driven technologies and Artificial Intelligence.**

In this TechDay @ Altime Labs event will be presented a subset of relevant technological subjects being addressed and how they are being used to streamline and modernize Altime Labs product development lifecycle.

All participants will have the opportunity to make questions during the session using the MS Teams chat window.
