

Press Release

The many applications of Nanotechnology will be discussed in Portugal
19th and 20th October
Braga

INL SUMMIT DEBATES NANOTECHNOLOGY

For the third year in a row, INL Summit organized by the Nanotechnology International Iberian Laboratory (INL) will occur over the next month, in the city of Braga, located in the north of Portugal, between the day of 19th and 20th of October. Under the theme “Nanotechnology: The new Economy” this exquisite event will gather highly skilled professionals from diverse areas, acknowledged nationally and internationally. Together they will discuss the impact and Nanotechnology’s contribution to society today and in the days to come.

For two days, politicians, economists, scientists, investors and entrepreneurs amongst other personalities of different areas will debate the way nanotechnology is reshaping the future of global economy.

“Nanotechnology: The new Economy” will have presentation of case studies, predicaments about future trends in the area, new challenges and further developments that have been achieved in this field. On the 19th October, Thursday the conferences will start with the theme “Science: not fiction” and continues with “Nanotechnology and the 4th industrial revolution”. The next day, Friday, the 20th, the debate starts with “Nanotechnology: Art, Design and Education” and then they will discuss the impact of nanotechnology in the economy.

Nanotechnology is transforming the way society produces, consumes, communicate and actually lives. Cellular implants, nanomachines capable of entering the human body and eradicate fully blown virus and bacterial diseases, 3D impression of human organs and many other things that seemed to be available only in Sci-FY will be tools of our everyday lives tomorrow.

INL, the Iberian Nanotechnology Laboratory is the major hub in Portugal and one of the largest in the world to develop I&D in the Nanotechnology in four areas: health, food, environment and nanoelectrics. It contains diverse teams of 28 nationalities.

INL Summit is one of the largest events fully dedicated to Nanotechnology in Portugal. Occurs on the 19th and 20th of October, at Theatro Circo in Braga.
